

PRODUCT PROFILE

TRAINING VOUCHERS

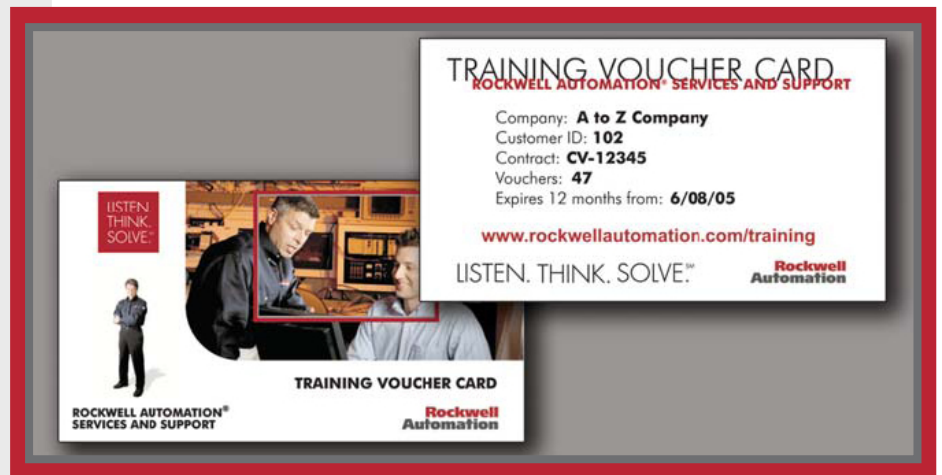

Use Training Vouchers to:

- Reap the benefits of the latest technology by bringing team members up to speed quickly
- Develop new project teams and leaders
- Jump-start the deployment of new system rollouts by training your entire staff at the same time
- Launch new hires successfully by giving them all the training they need to contribute immediately
- Meet your evolving training needs as they arise

Benefits:

- A single purchase for all your training needs
- Savings of up to 20% off your purchase
- Easy budgeting and purchasing
- Redeemable for one year on any public training course

SAVE UP TO 20% - Maximise your training investment with Training Vouchers

**Are your employee development needs diverse?
Do you need to stabilise your Training budget?**

Manufacturers need to get products to market faster, more efficiently and with the highest degree of quality. With a focus on improving their Overall Equipment Effectiveness (OEE), managers must optimise employee performance to get the most out of their production environments. In other words, OEE is increased via performance-based training and maximising your human assets. Thus, for both Maintenance and Engineering departments, staff training is a vital component of a strategic approach to maintenance and is used to maximise Integrated Architecture investments and overall profitability. A strategic approach assumes that different employees have different training needs at different times. Managers are challenged, therefore, with varying employee development needs and limited budgets.

Training Vouchers allows you to pre-purchase training at a saving and then select the right training offering to meet your employees' distinct needs at the time best suited for their availability. Get the results you need when you need them. The flexibility, ease of redemption and cost savings you experience can result in a stabilised budget for your entire staff development needs.
